INTERNSHIP OPPORTUNITIES AT SAINT MICHAEL'S COLLEGE

What is an internship?
An internship is the opportunity to experience a work environment, contribute to the mission of an organization, and gain experience in a particular field. These opportunities can be paid or unpaid positions, academic/credit-bearing or not, and can vary widely in the number of hours spent on site.

Why do an internship?
• Most employers tell us that **real world experience in a work environment** is one of the major considerations they take into account in hiring college graduates. If a student shows interest in a particular career area, follows up with an experience in that field through an internship, and receives a strong recommendation from the internship site, he/she becomes a more attractive applicant for a position, and is more likely to be hired.

• Adding an internship to your college experience shows initiative, motivation, time management and organizational skills. These are qualities most employers are looking for.

• An internship experience can help you rule out careers you may have thought were perfect for you, or help you solidify your decision about pursuing a particular career.

• An internship lets you explore a work environment, and determine what organizational culture best suits your work style.

• You may meet people who will be able to serve as references for you in the future, or could be terrific networking contacts to help you find full-time employment after you graduate.

What skills will I acquire through an internship?
In most positions, you will develop a wide variety of skills that are transferable to most workplaces. These include skills in:

Teamwork	Leadership	Time management
Oral and written communication	Flexibility and adaptability	Initiative
Motivation and enthusiasm	Organization and planning	Interpersonal interactions
Analysis and problem solving		

What types of internships are available at Saint Michael's College?
Internships are available in 3 areas: non-academic internships, academic internships and opportunities through study abroad.

Academic Internships: Academic internships are coordinated through Joanne LaBrake Muehlberger, the Director of Academic Internships. Her office is located in the Klein Academic Enrichment Center Room 114, and she can be reached at ext. 2314 or by email at jlabrake@smcvt.edu for more information.

Opportunities through Study Abroad: Some study abroad programs also offer the opportunity to do an internship. Contact Peggy Imai, Director of Study Abroad, Klein Academic Enrichment Center Room 118, at ext. 2222 or pimai@smcvt.edu. *Applications for study abroad can be due one or two semesters before you plan to leave campus – check with the Study Abroad Office for application deadline dates.*

Are there any other opportunities for "internships" or experience in certain areas?
At SMC, you can take a Practicum or Internship Class for a particular major, such as Journalism, Business Administration, or Education (1 semester), or Psychology (requires a commitment of 2 semesters). You may also be able to do an

independent study project with a faculty member. Check with your academic advisor to see if this is possible. In addition, projects coordinated through the MOVE office will give you experience in some social and human services areas.

An internship is a wonderful opportunity to enhance your classroom learning with "on the job" experience. We encourage you to take advantage of an internship, if at all possible, during your education at Saint Michael's.
