My name is Omar. I am from Somalia and came to the United States on March 20, 2004. I now live in Burlington, VT and I love it. The United States has provided me with more opportunities than I could have dreamed of. If you have a goal and are determined you will always reach your goal. There is no limit as to what you can become. When I came to Vermont I could only read and write the English language. After a couple of months I decided I needed to go to school and discovered Youth Build. I also started taking different classes at the Community College of Vermont. When I found the school I started working hard to improve my reading, writing, and speaking abilities. Eventually I was able to graduate from Burlington High School. I had received my high school diploma in just 8 months.

YouthBuild graduates Nick Vogt, Jillian Pellerin and Ahmed Omar.

Moving up

Congrats, Grads!

YouthBuild grads look forward to next steps

BURLINGTON — Congratulations to our recent YouthBuild graduates! Once again we got to send some amazing people on toward bright futures. Ahmed found his way to YouthBuild from Somalia and cranked out the equivalent of 5 years of education in just 8 months. Nick started from a little closer to home, and will be headed off to St. Mike's in the fall. And Jillian impressed everyone who met her and looks forward to working with animals. Each of these all-stars also made the trip to Mississippi to help with hurricane Katrina recovery work and put in countless hours working on affordable housing projects in Burlington. We wish them the best!

ReCycle North YouthBuild serves young adults who did not complete high school and who are interested in wrapping up their high school education while preparing for college or rewarding jobs. More information at 658-4143 x 39 or youthbuild@recyclenorth.org
