Below are possible configurations to assist in planning the completion of your degree. As long as the guidelines below are met and the seven-year Statute of Limitations for degree completion is observed, you may sequence your courses to suit your individual educational needs and objectives. Part-time students may find it helpful to use the Summer as the time to complete the thesis or major paper. The courses of study below, except for the two-year program, are only examples of how one might do part-time study. The * indicates that only two electives are needed if you choose to do a Thesis. Please note prerequisites for specific courses when planning your schedule.

**FULL-TIME SCHEDULE: TWO-YEAR PROGRAM REQUIRED SEQUENCE**
