

How to Do A Program Evaluation on KnightVision

A Program Evaluation is an essential tool for tracking your path to graduation. It will tell you your overall and major GPA, help you navigate through your major and the Core Curriculum/LSC, and help you figure out which courses and requirements you've completed and which you still have to take.

The following is a step-by-step guide to completing your own program evaluation on KnightVision. Remember, *you should always do a program evaluation before choosing classes and meeting with your advisor every semester.*
