

MASTER'S IN CLINICAL PSYCHOLOGY - CLINICAL MENTAL HEALTH COUNSELING TRACK

COURSE SEQUENCING

Below are possible configurations to assist in planning the completion of your 63-credit degree. As long as the guidelines below are met and the seven-year statute of limitations for degree completion is observed, you may sequence your courses to suit your individual educational needs and objectives. Part-time students may find it helpful to use the summer as the time to complete the thesis or major paper. The courses of study below, except for the two-year program, are only examples of how one might do part-time study.
