Students Receive Aid from the College

**#1**

NCAA Division II in Academic Success

At Saint Michael's College, we pride ourselves on our holistic approach to admission. Our process is highly personalized and takes into account the entire student, from high school coursework, academic transcripts, and writing abilities to co-curricular experiences, recommendations, and connections with campus. We strive to understand each student's unique life situation, and are committed to working with students to bring that understanding to fruition. We look for motivated students who are active learners ready for a rigorous intellectual experience who are also motivated by engaging in a pursuit of purpose. We are especially interested in students who want to have a social impact through service, social justice, and bringing communities together.
